Legend

- Y Device class Supported and Device(s) compatible within the Nexia™ Home Intelligence Web and Mobile Applications
- N Device class/Device not currently supported within the Nexia™ Home Intelligence Web and Mobile Applications

Notes

- 1 Device must be Z-Wave® 5.02 series or later to communicate directly to a Schlage® Home Keypad Lock (This is especially critical for devices that may relay messages to the lock)
- 2 The Nexia™ Home Intelligence Web and Mobile Applications currently support more than 230 popular Z-Wave® devices and Nexia continues to add support for Z-Wave® products on an ongoing basis
- 3 It is recommended that the Nexia Home Bridge is the primary controller
